

ACIM.

ANCHORAGE COMMUNITY ICE MANAGEMENT

"Ice for All | Excellence for Generations"

OUR PLAN

Keep Ben Boeke and Dempsey Anderson in the hands of the community that use and love them every day.

ACIM is a local nonprofit — created by the Anchorage Hockey Association — who is now contracted to manage both municipal ice arenas. No outside operator, no profit motive: just the families, coaches, and skaters who already depend on these rinks, running them openly and reinvesting every dollar back into the buildings.

01 / COMMUNITY-OPERATED

Community Operated

ACIM is built specifically to manage these facilities and return them to their original glory.

02 / TRANSPARENT

Every dollar, out in the open

Zero management fees. Zero profit taken. Financials published annually online, plus a public schedule and a running list of repairs and upgrades in progress.

03 / BUILT TO LAST

Same staff, stronger support

All staff of the facilities who want to keep serving will remain with ACIM. Familiar faces with a new energy and purpose to serve this community.

65+

YEARS OF AHA HISTORY

OUR MISSION

"Anchorage Community Ice Management, Inc. (ACIM) responsibly manages, operates, and continuously improves the citizen-owned ice user facilities — Ben Boeke and Dempsey Anderson Ice Arenas. Our goal is to provide an equal opportunity for all Anchorage citizens to recreate in a manner that is safe, productive, healthy, developmental, and fun — especially for our children. Our guiding principles include honesty, transparency, and daily improvement."

► Watch the Progress

Live online schedules, annual audited financial statements, a running list of facility needs, repairs and upgrades all posted online for our community on our website at www.anchoragecommunityice.org.

► Have Your Say

ACIM welcomes feedback and collaboration from all of our user groups. Our committee is open to listen to all users with feedback and positive ideas about how we can all make our rinks better for all.
